RFID SAFE TRAVEL WALLETS

WHY WE NEED TO USE RFID-SAFE WALLETS?

Some credit cards, passports, and driver's licenses now come with embedded radio frequency identification chips. When activated by an RFID reader, these chips transmit certain types of information wirelessly, so that you can verify your identity or even make a purchase without swiping your card. The downside: Anyone with an RFID reader can activate those chips and pick up whatever information they're designed to transmit. And, if they're sneaky about it, they can do it without your knowledge.

PREVENT E-PICKPOCKETING

Without proper security measures, make it easier for thieves to steal valuable information. Electronic pickpocketing, or e-pickpocketing, is a new term coined for stealing information from a card without even touching it. Because RFID signals work wirelessly and can be read even when they are out of sight, the information can be lifted by somebody from a few feet away using a portable scanner.

SUSTAINABLE PRODUCTS

We design for environment...

HOW WELL YOU KNOW ABOUT SUSTAINABLE?

In September 2015 Heads of State and Government agreed to set the world on a path towards sustainable development through the adoption of the 2030 Agenda for Sustainable Development. This agenda includes 17 Sustainable Development Goals, or SDGs, which set out quantitative objectives across the social, economic, and environmental dimensions of sustainable development—all to be achieved by 2030.

- UNITED NATIONS
"SUSTAINABLE DEVELOPMENT GOALS"

WE DESIGN SUSTAINABLE PRODUCTS TO PROMOTE AND ACHIEVE SUSTAINABLE DEVELOPMENT GOALS

SUSTAINABLE PRODUCTS simply describes a product that is not harmful to the environment. There are many benefits to using SUSTAINABLE products that are not simply centered around the health and well-being of the Earth, but also your health and your lifestyle too.

Think how we design BAMGO STATION?

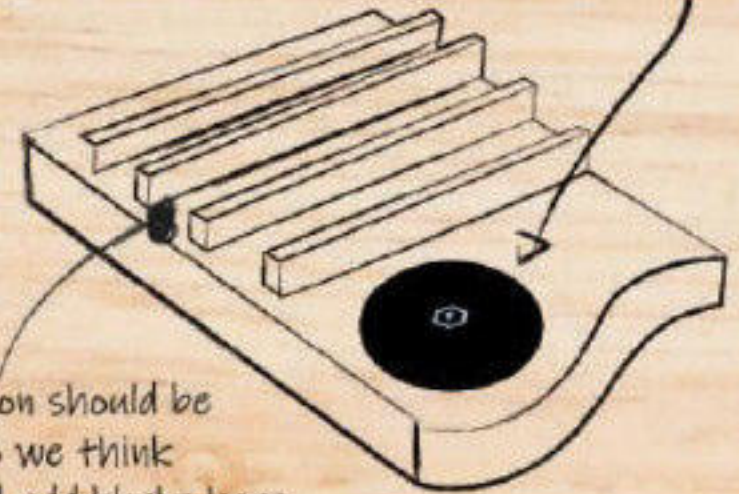

1. Most design always starts with a box, but we always need it outside the box.

First Concept for the CHARGING STATION with Phone and Business card holder.

WE NEED TO CHANGE THE SHAPE TO BE DIFFERENT... AND THINK WHAT IS THE TREND IN THE MARKET

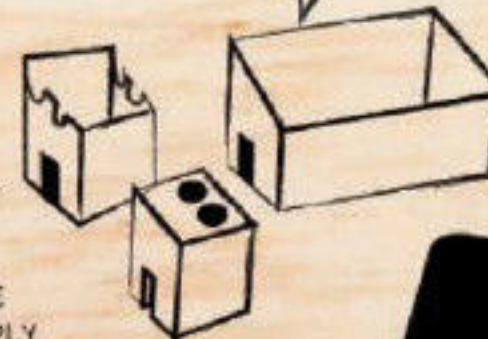

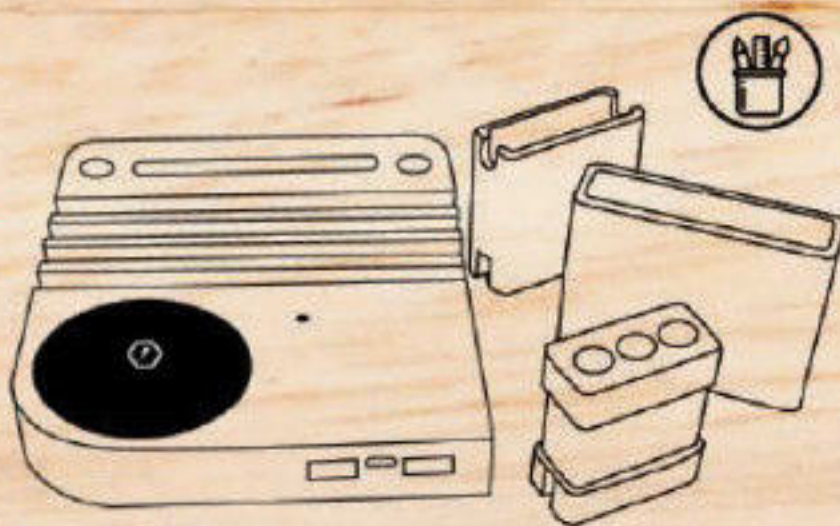

So we add wireless charging...

But the design looks like printer who eats phone and cards... so we have to midfy it.

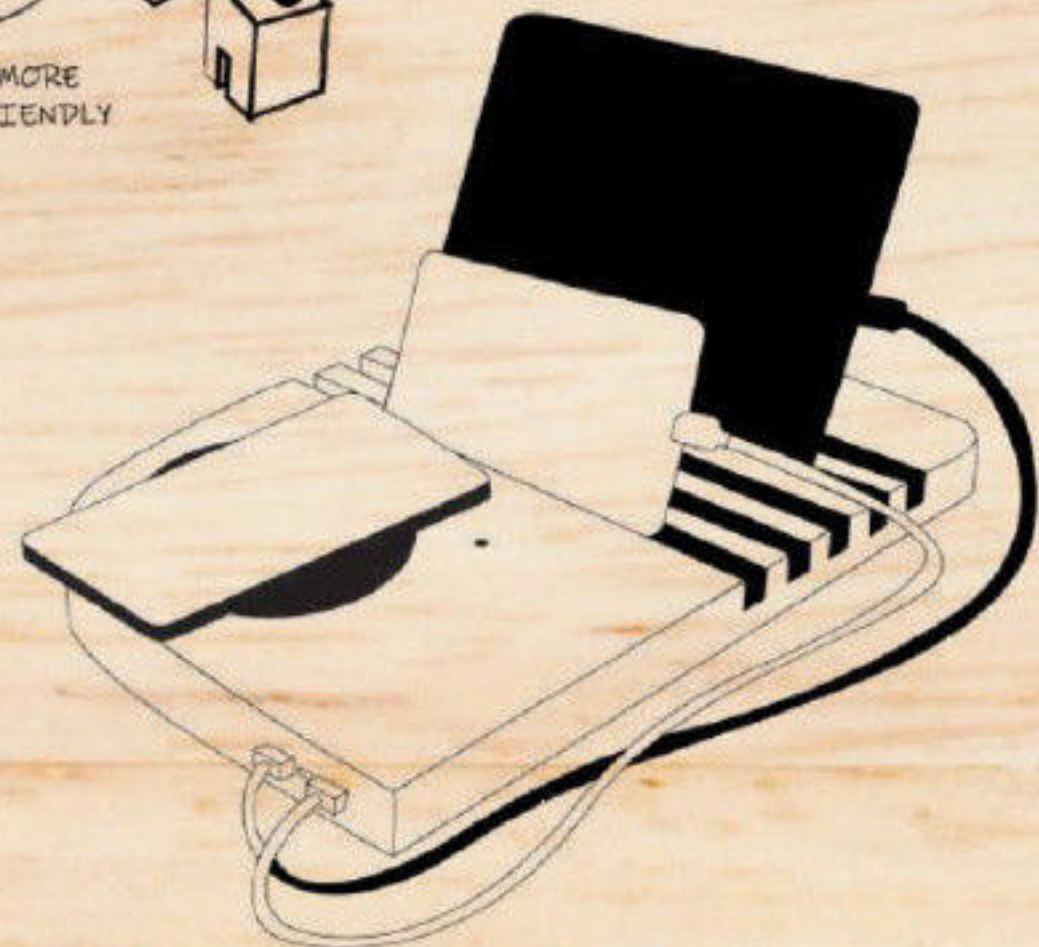

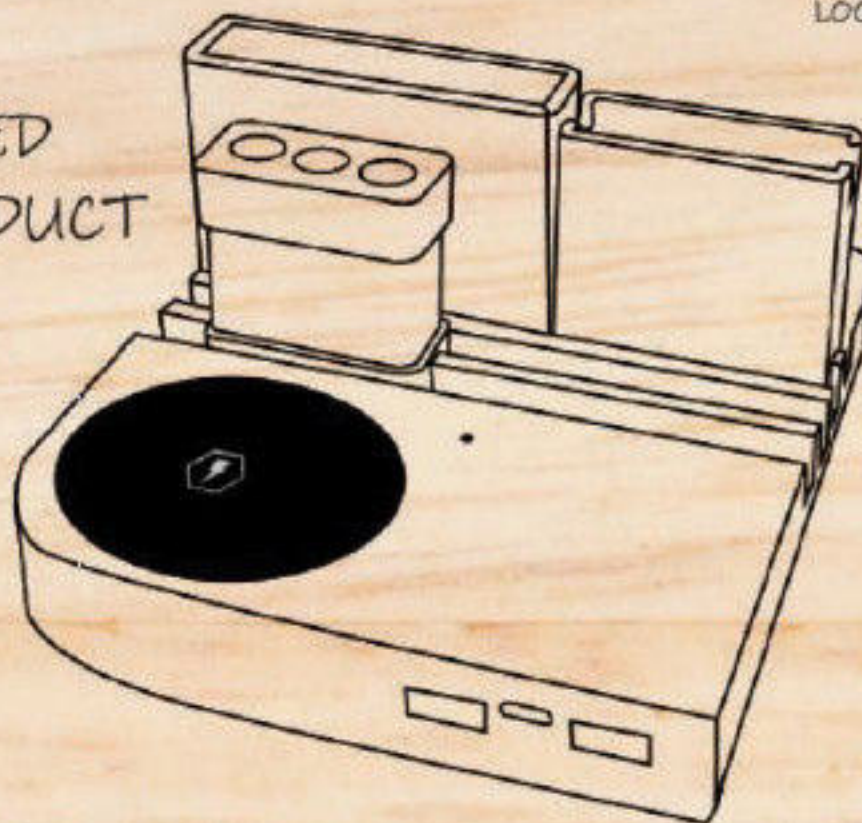

Add-on feature to make it FUN while organizing your desk.

This section should be useful... so we think if we could add blocks here.

WE MAKE IT MORE CUTE AND FRIENDLY LOOK

FINISHED PRODUCT

Smart way to charge your Phones and Tablets all in one desktop organizer, either wireless or by a cable port.

3 STANDARD PEN HOLDER

Additional storage for slim, tall items like scissors, pens, pencils and remote control keeping it upright and within reach.

CARD HOLDER: Bamboo box holds your business cards and any other notes to make a clean and nice desk.

IN-BETWEEN SLOTS

Slots that can be used as phone holder or other office and home supplies.

Slots can also be used to rearrange other items.

WIRELESS CHARGING

USB CHARGING

DESKTOP ORGANIZER

E6028 | BAMGO STATION

This Bamboo Desk Organizer has multiple functions apart from as wireless charger, can also be used as card holder, mobile holder, with bamboo slots to hold standard pen, an additional in-between slots to hold mobile/office and other supplies. It is perfect in office and home setting to organize cable ties and rearranging other items, too. Recycled box packaging. Base dimension: 18x15x2.5cm

@LegendaryADLAND

OUR INSPIRATION TO DESIGN bamcube

Concept 1

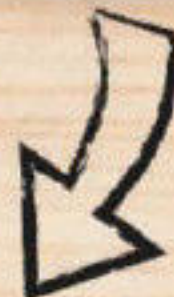

! This SHAPE can make
- COASTER
- CALENDAR
- OFFICE DESK MAT

Concept 2
with Black printing of
Customized Calendar

I love music while camping
and I used empty tissue paper
box when amplifying
phones if the battery of the
speaker dries out.

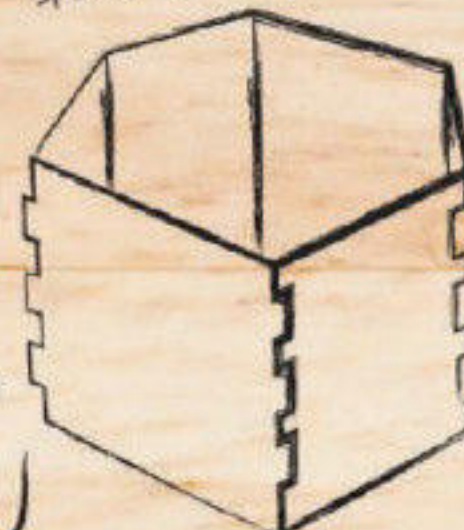

When Assemble all the
puzzle shapes it will
add more features like
Phone Amplifier
and Pen Holder

the more puzzle it is the
more complicated
the item when assembled
so we decided
to make it as a shape
of CUBE with basic
puzzle look.

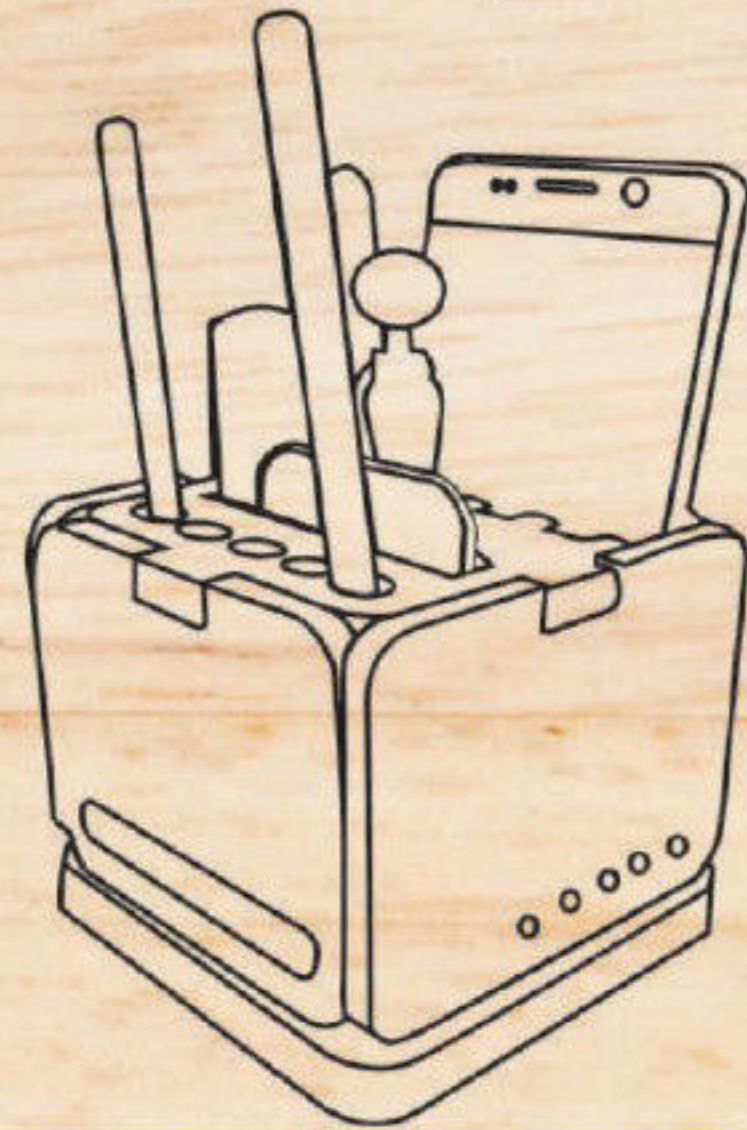

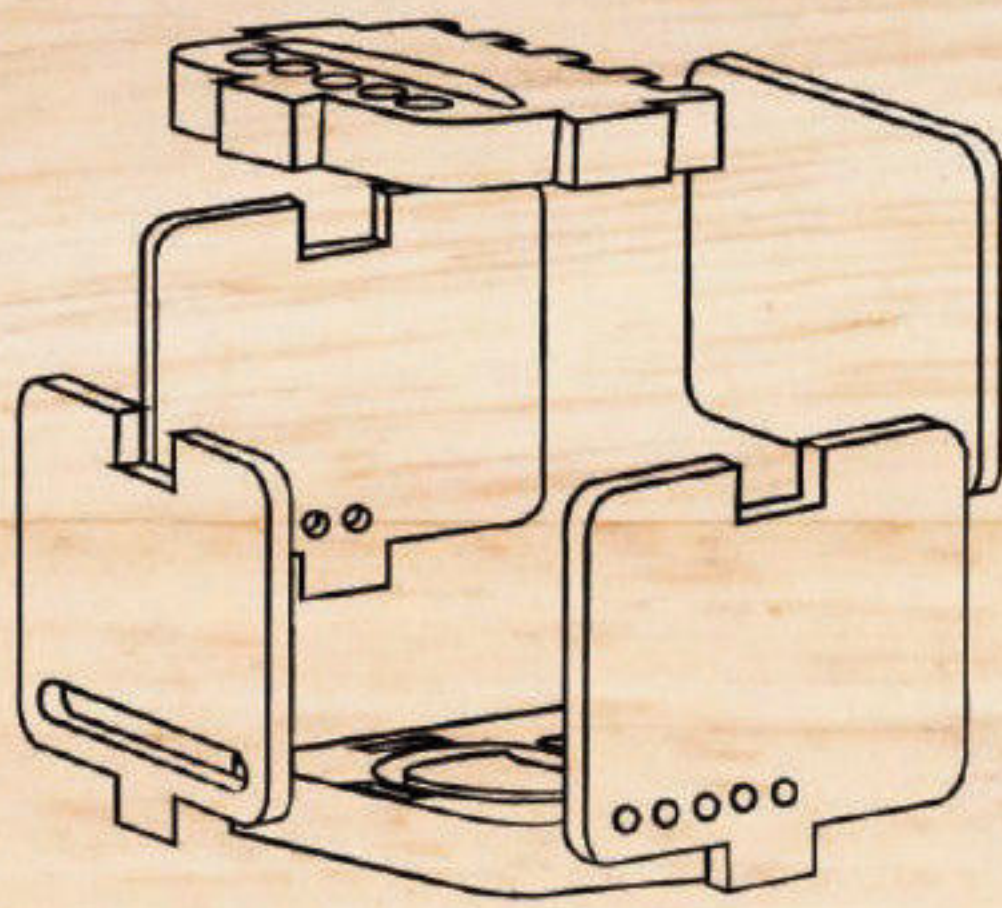

Trying different shape
to see more features.

I like too much
Al Qahwah

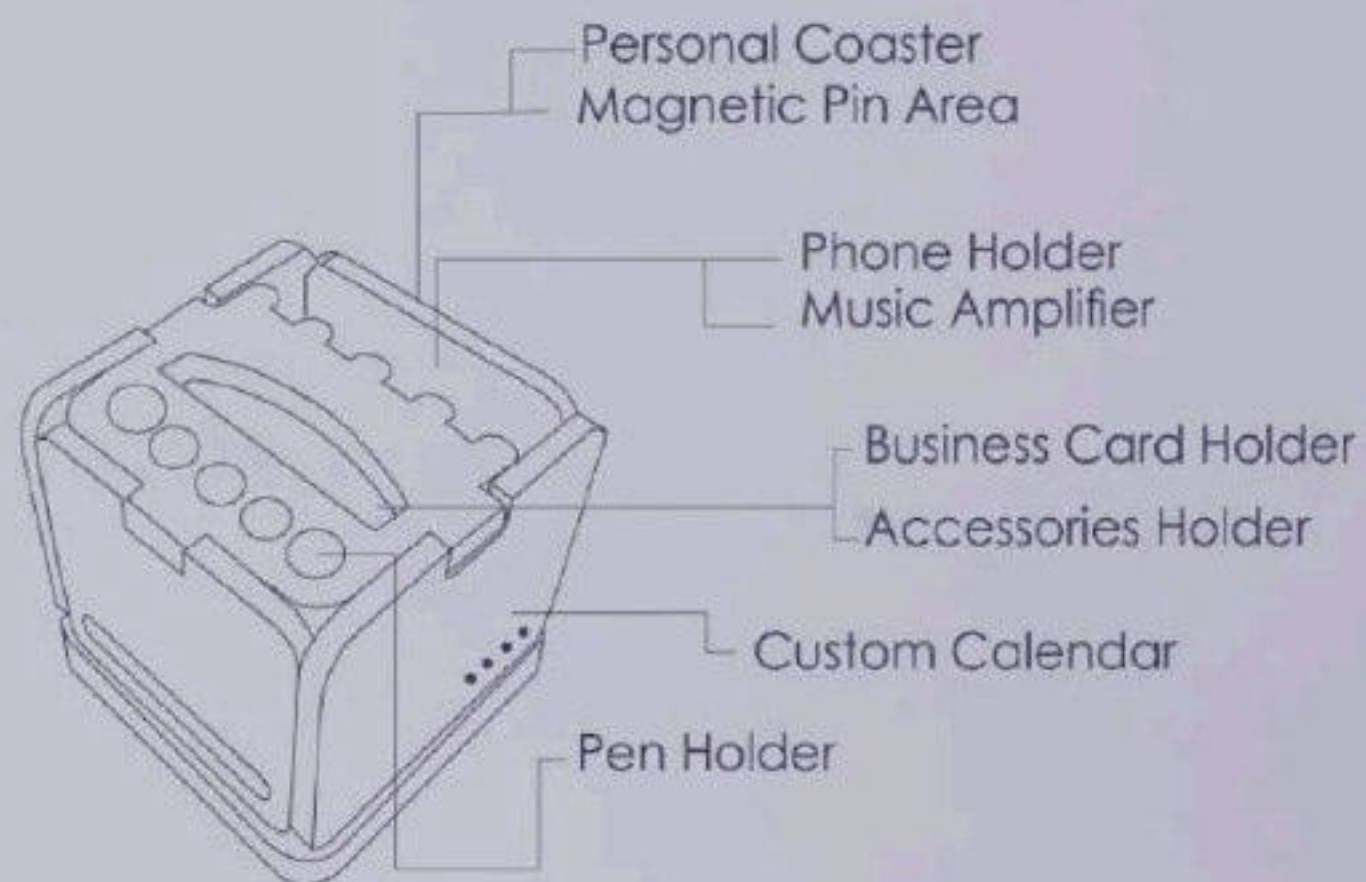

The added feature of **tea coaster**
is possible when taking out one plate of Bamcube.

FINAL CONCEPT

A cluttered desk can lead to a hectic work environment, so manage your office necessities with Bamcube.

E6027 | BAMCUBE

BamCube, an all-natural, eco-friendly music amplifier and desktop organizer and create a unique look in your desk. You can carry around and can assemble anytime or can be just right in front of your working table. Recycled box packaging. Dimension: 10x10x8.6cm

www.LegendaryADLAND.com

00966568654916

THINK GREEN? GO WITH BAMBOO

A highly sustainable material called Bamboo is the fastest growing planet. A member of the grass family, bamboo is known for tall hollow stems that reach their full height in just one growing season.

Long Lasting

Durable

Anti-bacterial

Bamboo is both flexible and elastic. As a result items made from bamboo tend to be very resilient and resist breaking when placed under stress. Bamboo does not have rays or knots the way wood does, this means that stress applied to the bamboo is evenly distributed over the surface.

FUN FACTS!

Did you know...

Alexander Graham Bell made use of bamboo for his first phonograph needle?

Thomas Edison successfully used a carbonized bamboo filament in his experiment with the first light bulb.

According to Japanese scientists, bamboo cloth can retain its antibacterial quality even after 50 washings.

TECHNOLOGY

Does Digital Technology improves our lives?

Technology has brought many great things such as the ability to have light during night. Imagine how bad your day can be and how your life gets stuck if there is no light in few hours. How life can be without any power supplies for your need? It improves our lives in many ways and today, we live it as part of our socio economic lifestyle.

Qi WIRELESS CHARGING

YOUR FUTURE IS WIRELESS

Qi is one of the wireless technologies on the market. It's a popular option used by some of the industry's leading smartphone manufacturers, including Apple and Samsung.

Some charging pads aren't optimised for Qi and may charge slowly, overheat, or stop charging before your device fully powered up.

Engineered to be Qi compatible, the boost up 5W Qi wireless charging pad safely and fully charges phones, tablets and other compatible devices onto the charging pad and go.

Sharing Happiness

Why Giving Makes You So Happy?

Gifts can be extravagant or luxurious, but there is a sense of satisfaction when seeing someone's facial expression you have given the gift.

Although gift-giving can elevate emotional balance, the hunt for a perfect gift for clients, friends and colleagues can also be difficult. Not only is the gift recipient likely to be responsive, but we ourselves may also be delighted.

So in this section of catalogue, you will find the benefits of interesting items for Happiness.
